Part-Time Pros Announces Acquisition of Medical Staffing Agency

Part-Time Pros Continues Growth by Adding Tulsa-Med Pros to serve Medical Industry

TULSA – After three years of successful operation in Tulsa, staffing agency Part-Time Pros announces the acquisition of Medical Professionals LLC. The merge took place on November 29, 2010. The company will operate separately under its parent company Part-Time Pros, and will assume the name Tulsa- Med Pros.

Under the new structure, Tulsa-Med Pros will be able to offer medical placements to their existing customers and offer professional placements for the medical professional customers. Tulsa-Med Pros, formerly Medical Professionals LLC, is one of Tulsa’s premier medical staffing firms.

Carey Dunkin Baker, Part-Time Pros President and founder saw this is a great opportunity to expand their services.

“In healthcare, most providers are overwhelmed with work. We (Part-Time Pros) take pride in partnering with every applicant to ensure we make a great match for our customers,” Baker said. “This was a great opportunity for us and a natural fit for our business model of providing quality people for quality jobs.”

Tulsa-Med Pros assumed one employee in the merge, Beverly Hale, who will continue to recruit talent for existing and new clients. Beverly has over 25 years of healthcare recruiting experience.

Tulsa-Med Pros works with small medical practices or large healthcare entities and partners with every client to help them find the best skilled medical professional for their facility. They test and screen all applicants prior to recommending them for a particular position.

The parent company, Part -Time Pros was founded in 2008 by Tulsa natives Carey and Brett Baker, who saw an opportunity to tap into the talents of degreed professionals who wanted a flexible work environment. Part-Time Pros specializes in recruiting professionals who are seeking part-time employment and placing them with companies that have part-time personnel needs.
